SUMMARY

Full-stack developer with over 1 years of experience in building scalable web applications using React.js, Next.js, and Node.js, resulting in a 30% increase in user engagement for client projects.

WORK EXPERIENCE

Freelancer | SRMAP Fest

Amaravathi

Frontend Engineer | Next.js

Jan 2025 - Present

- Conceptualized and coded a college fest registration platform using Next.js, enabling **3,500+ visitors** and **100+ teams to register**, the platform achieved **98% uptime during peak registration periods**.
- **Deployed on Vercel** : Optimized performance and scalability for high traffic, ensuring seamless deployment and maintenance while supporting **100+ concurrent users** during peak registration periods.
- **Design Excellence** : Delivered a responsive, **mobile-first interface with a 98% usability approval rating** from stakeholders, prioritizing accessibility and **cross-device compatibility** (desktop, tablet, mobile).

Freelancer | Family business

Remote

Frontend Engineer | HTML5, CSS, Javascript.

Jun 2024 - Jul 2024

- Made a car rental website, **increasing user engagement by 30%** (from 1.2K to 1.5K monthly sessions) and boosting bookings by 20% (from 500 to 600 monthly bookings).
- **Wrote 500+ lines of code** to improve navigation, responsiveness, and accessibility, reducing bounce rate by **25%**.
- **Implemented real-time car availability and filtering features**, increasing customer retention by **15%**.

PROJECT EXPERIENCE

MNIST Digit Recognition Model | Next.js, Node.js, Python, TensorFlow, Keras, TensorFlow.js.

- Trained a CNN model achieving 99.2% accuracy on the MNIST dataset using data augmentation and dropout regularization.
- Built a real-time web app with <100ms prediction latency, processing 1,000+ user-drawn digit submissions with 95% correct predictions.

F1 Route Optimizer | React.js, Node.js, Express.js.

- Reduced route calculation time by 70% using permutation-based optimization, solving TSP for 15+ cities in <2 seconds.
- Improved API efficiency, handling 50+ requests/sec with <200ms response time during load testing.

Autobahn | Next.js, Node.js, MongoDB

- Developed a platform that processed **150+ test drive bookings** and **80+ car purchases** during test deployment.
- Reduced backend API response time by **40%** (from **500ms to 300ms**) through optimized queries and route handling.
- Enabled real-time status updates, cutting user wait time by **60%** and increasing session completion rate by **35%**.

EDUCATION

SRM University

B.tech, CSE

Amaravathi, IN

Graduation Date: July, 2026

Career Point

MPC Secondary education

Amaravathi, IN

Graduation Date: July, 2022

SKILLS

- Languages: Java, C/C++, Python, JavaScript, SQL, Bash
- Frameworks: NodeJS, Express.JS, Scikit, TensorFlow, Django
- Libraries: React, Next, MongoDB, pandas, NumPy, Matplotlib, Scikit-learn
- Tools: GIT, PostgreSQL, MySQL
